

# **Sasamat Volunteer Fire Department Needs Your Help**

Our self-contained breathing apparatuses (SCBA's) are almost 25 years old and approaching the end of their service life

**In a fire every second counts.**

**Updated SCBA units will give us more time and energy to protect and serve our communities, neighbors, friends and loved ones. They are lighter, last longer and have important new safety features.**

**The total cost will be almost \$170,000, so every dollar counts.**
