POTABLE WATER – WATERWORKS CONSTRUCTION OCTOBER 4, 2010

On September 13 Council awarded the Waterworks Construction contract to Mission Contractors Ltd. to construct the watermain along Midden Road, Bedwell Bay Road and Main Avenue (terrestrial works). The amount of the contract is \$1.9 million, and was the lowest of six bids tendered for this phase of the project. The contractor expects the work to take about six months and intends to have the work completed early in 2011.

During the week of October 24, Mission Contractors Ltd. are scheduled to begin site preparation work. Watermain trench work is scheduled to begin the week of October 31. Scheduling details for the trench work locations will be provided by the contractor and will be posted on this website.

Signage will be installed advising of necessary road closures. TransLink and emergency responders will be advised of pending road closures.

Traffic delays can be expected once the work commences. Residents are asked to take this into consideration in planning their schedules.

GVRD has authorized that the Village may divert traffic to Tum-tumay-whueuton Drive as an alternate route. Persons using Tum-tumay-whueuton Drive are advised that traffic calming and posted speed control signs **must** be adhered to at all times. The privilege to use the alternate route **will be withdrawn without notice** should users fail to obey the traffic calming and speed controls.

If you have questions, please contact the Municipal Hall at 604-937-4100.

Lynda Floyd
Chief Administrative Officer
