## Notice of Low Level Flying Over Metro Vancouver Regional District

April 18, 2022

FortisBC has sent the following notification with regard to Low Level Flying Over Metro Vancouver Regional District. Please see the attached map for more information.

### **Notification of Low-Level Flying over the Metro Vancouver**

Talon Helicopters with LaSen Inc. is planning to perform low-level flyovers for FortisBC between May 1 and June 15, 2023, during daylight hours, as authorized by Transport Canada.

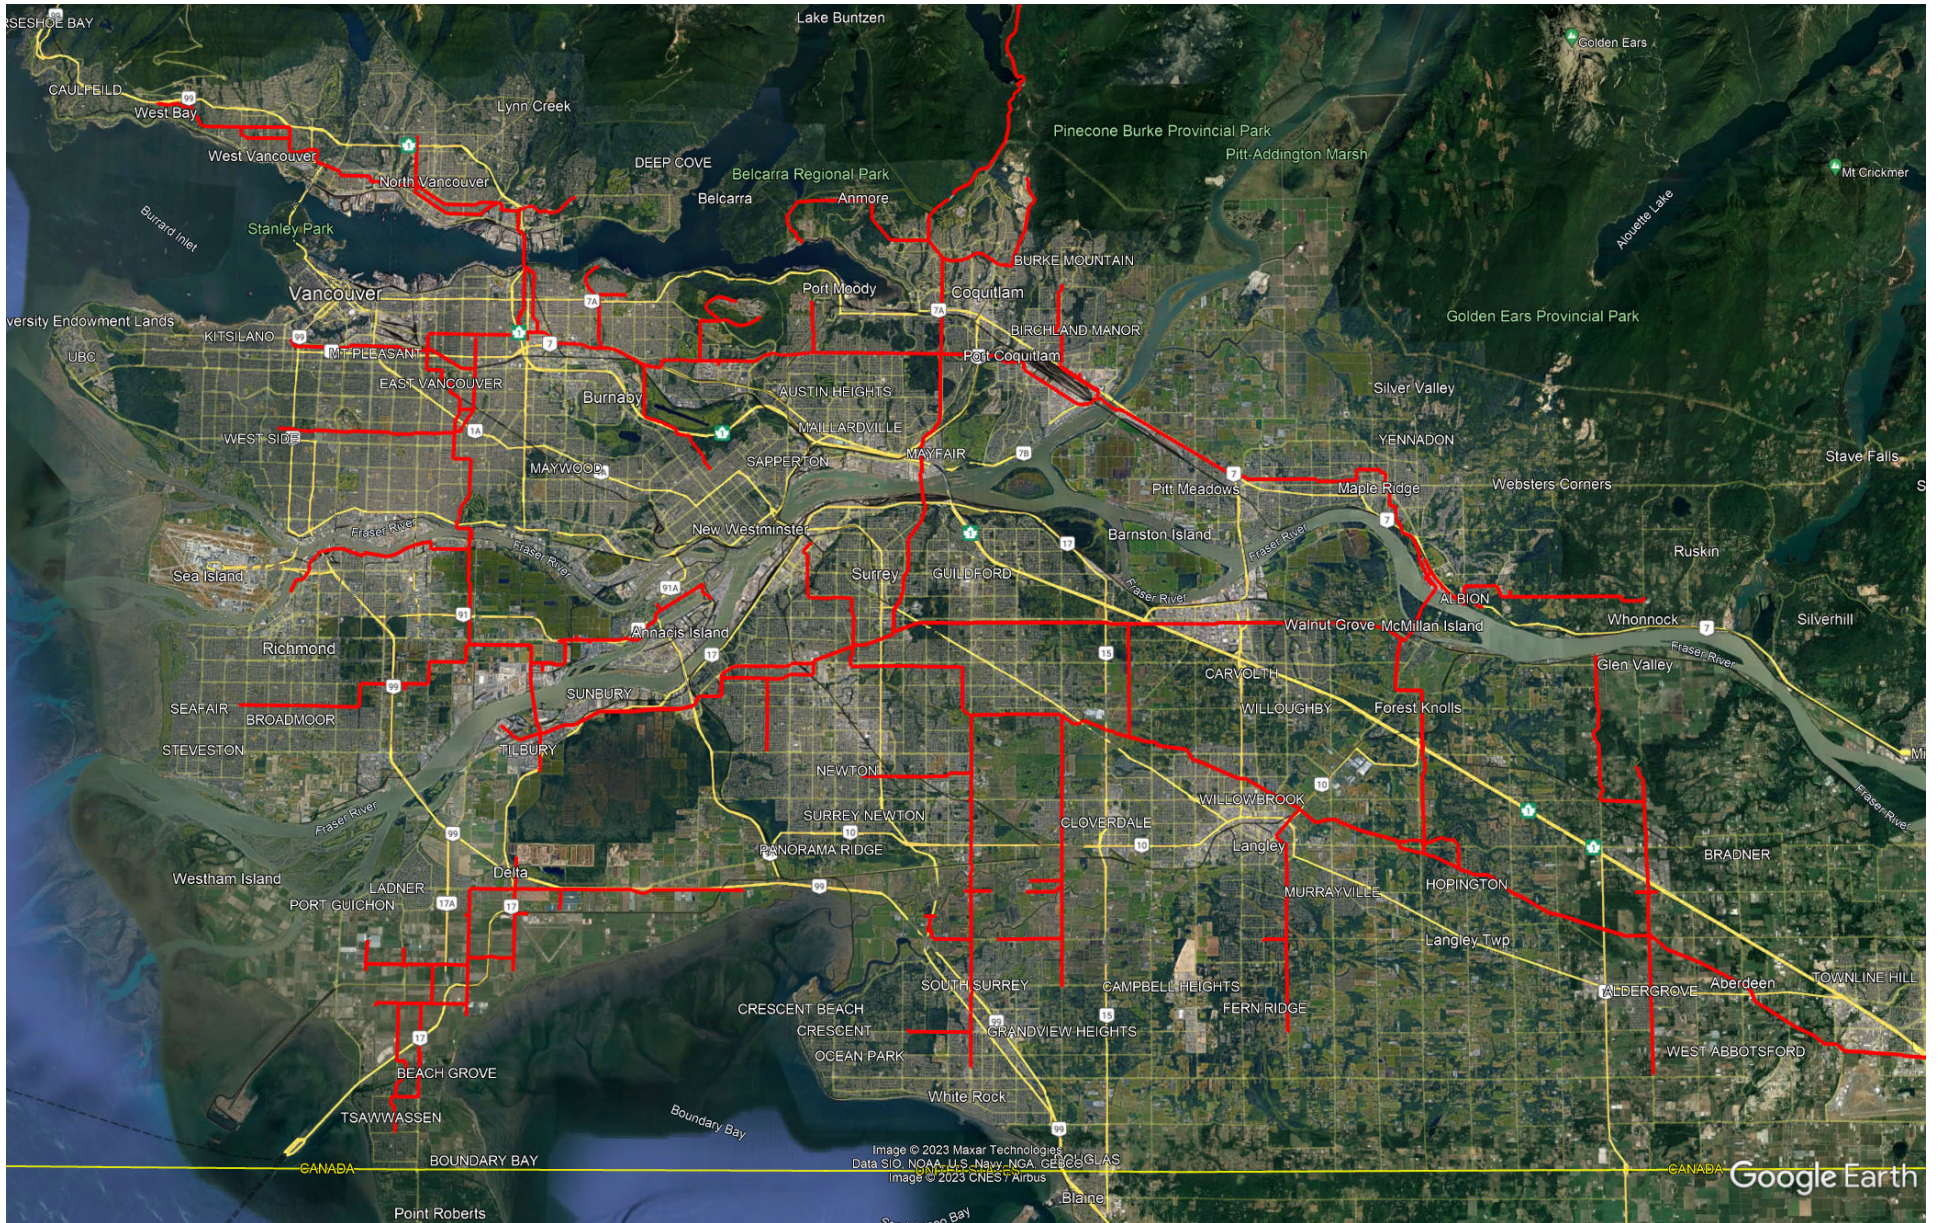

This work is part of FortisBC's annual inspection of its high-pressure transmission natural gas lines and is an important part of FortisBC's integrity management program. The low-flying helicopter uses LaSen's aerial LiDAR detection technology to inspect the pipelines. This technology is used to detect any issues to ensure FortisBC's system continues to operate safely, reliably and to plan maintenance activities accordingly.

Metro Vancouver is one of 23 regional districts in BC that we will pass through during this time – the flight time over a single area will be minimal. There will be no activity on the ground related to flights. The flight schedule may vary depending on weather conditions and wildfires.

A map of the relevant work zones is attached for your reference. The areas to be inspected include:

- City of Burnaby
- City of Coquitlam
- City of Delta
- City of Langley
- City of Maple Ridge
- City of New Westminster
- City of North Vancouver
- City of Pitt Meadows
- City of Port Coquitlam
- City of Port Moody
- City of Richmond
- City of Surrey
- City of Vancouver
- City of White Rock
- District of North Vancouver
- District of West Vancouver
- Township of Langley
- Village of Belcarra
- Village of Anmore

This notice has been provided for your information.
