

VILLAGE OF BELCARRA
Tatlow Reservoir Bypass Test
Wednesday, March 12, 2025

March 11, 2025

Public Works staff will be conducting a bypass test on the Tatlow Reservoir on Wednesday, March 12, 2025 from 8:00 am to 4:00 pm.

This testing is being done as part of the preparation for repair work on the Tatlow Reservoir which is scheduled to be carried out in the near future.

During this testing, residents may experience reduced water pressure and are asked to conserve water to the best of their ability including refraining from activities such as watering gardens, washing cars, filling pools etc.

The water pressure will be monitored by staff at different points of the system to allow for data collection on the impacts of bypassing the reservoir.

Thank you for your cooperation.

Stewart Novak
Manager, Municipal Services
