Notification of Low-Level Flying over the Metro Vancouver Regional District

Talon Helicopters with LaSen Inc. is planning to perform low-level flyovers for FortisBC between **May 14th to June 14th, 2025**, during daylight hours, as authorized by Transport Canada.

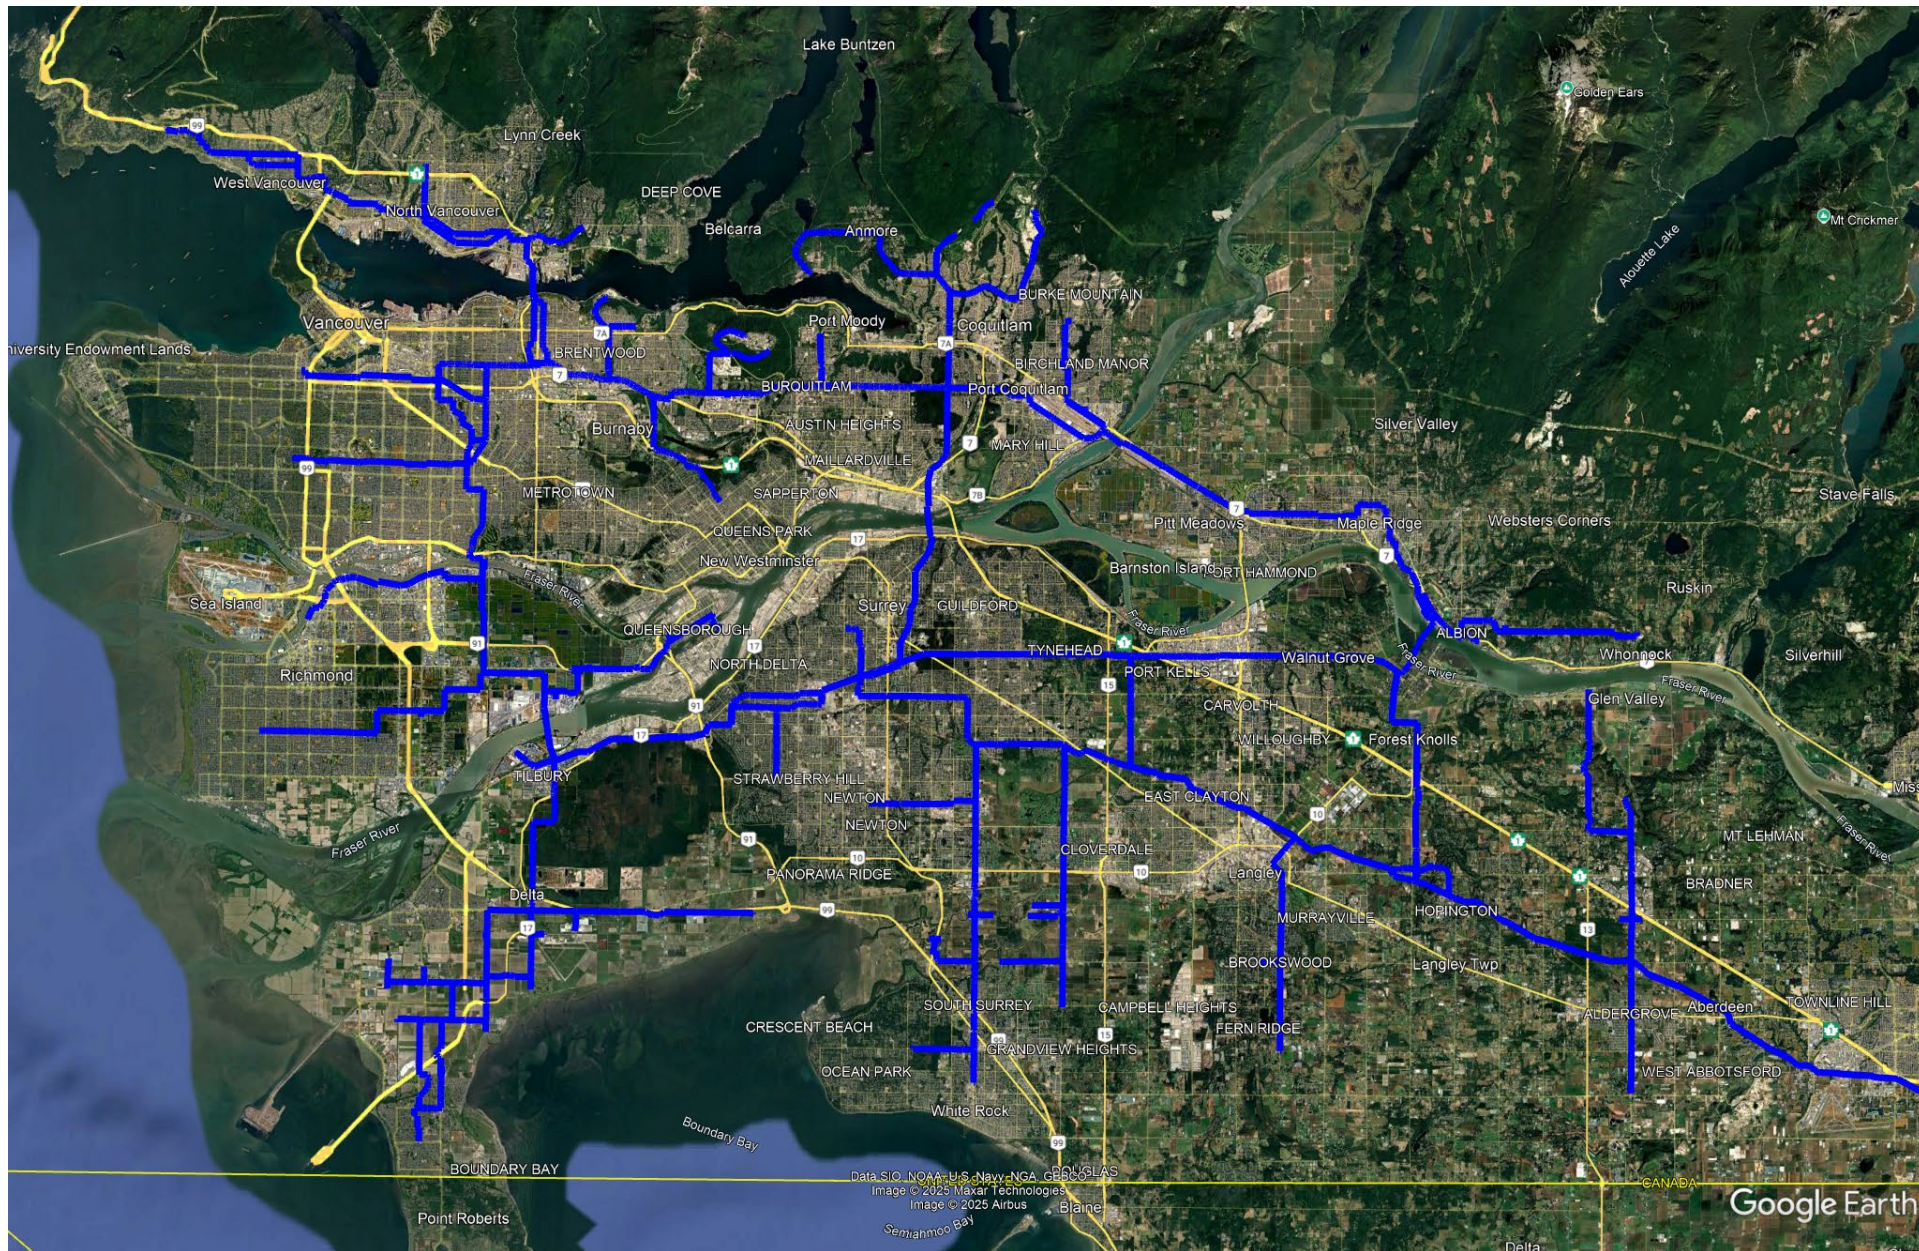

This work is part of FortisBC's annual inspection of its high-pressure transmission natural gas lines and is an important part of FortisBC's integrity management program. The low-flying helicopter uses LaSen's aerial LiDAR detection technology to inspect the pipelines. This technology is used to detect any issues to ensure FortisBC's system continues to operate safely, reliably and to plan maintenance activities accordingly.

The Metro Vancouver Regional District is one of 24 regional districts in BC that we will pass through during this time – the flight time over a single area will be minimal. There will be no activity on the ground related to flights. The flight schedule may vary depending on weather conditions and wildfires.

A map of the relevant work zones is attached for your reference. The areas to be inspected include:

- West Vancouver
- North Vancouver, City of
- North Vancouver, District of
- Belcarra
- Anmore
- Port Moody
- Vancouver
- Burnaby
- New Westminster
- Coquitlam
- Port Coquitlam
- Pitt Meadows
- Maple Ridge
- Richmond
- Delta (Ladner)
- Surrey
- White Rock
- Langley

For more information on this inspection work, call **1-888-224-2710**, visit fortisbc.com/communityupgrades or call Talon Helicopters at 604-214-3585
